

DRUG DE-ADDICTION & REHABILITATION Campaign

In order to curb the damages caused to the family members of losing their loved ones and seeing them suffer, we would be undertaking the following measures to keep a check on this menace and provide support to those who are suffering from the same:

*Setup a dedicated team for online & a helpline number for counselling, awareness and assistance for general public/NRIs who through these mediums can connect with us and our counsellors can consult them on the key issues to handle this.

*Specific Patient records and problems can be shared so that on a case-by-case basis on prior medical history specific medical treatment from medical professionals can be provided.

*Setup dedicated charitable & affordable Drug Rehabilitation centres where patients can be admitted for care & treatment with Day Care and residential facilities across India (Punjab being the Priority State).

*Organise Drug de-addiction & Rehabilitation Camps or conduct programs across the Country with an aim to reach adolescents, youth or general public for creating awareness about the harmful effects of Drug Abuse through Outreach & Drop-in Centres & encourage the drug-dependent persons to seek treatment.

*To develop & run dedicated Media Campaigns to make the general public aware of the key critical issues of drug abuse.

Manav Propkari Sanstha(MPS)& Centre For Reforms NGO's (Government Recognised & Awarded for their contribution) with more than 2 decades of its dedicated service to the society for the same and managing successful camps & rehabilitation centres are our key partners in our this initiative.(www.mps-anti-drug.org and <https://www.centreforreforms.org/>)

In order to register and share your need, you can log on to the website, register yourself and then submit an application for the assistance you need and then our counselling team will get back to you on the same. A dedicated team and a helpline number too to seek assistance Internationally is placed for the same.
